

SIDE DRESSING PAYS

Every stalk of cotton grown in South Carolina last year could and would have taken on more bolls than it did if it had been properly side-dressed. You will not see the long skips between bolls in side-dressed cotton that you see in other cotton, and you will see more bolls to the stalk.

Every stalk of cotton grown in South Carolina last year would have "shed" less if it had been properly side-dressed. The reason cotton sheds is that it is deficient in plant food. The way to supply this plant food is to side dress your cotton. You pump it into it. A young, tender, growing child should be fed frequently to make it grow rapidly and develop and come into its own, and it is the same way with young, tender growing plants, they should be fed (side-dressed) frequently. You don't expect to feed your mule enough in April to last until October and the plant food you supply your crop with in April will not last until October either. When the plant exhausts your cotton sheds. Your crop is "cut."

You can only make one cotton crop a year, that is your money crop. You want to make all the cotton you can. You want to make all the money you can. For every dollar you pay out for fertilizer for side dressing you get back from three to five dollars. This man Rodgers in Florence county who fertilized every time he cultivated his crop, made 830 pounds of lint cotton to the acre, lint cotton—not seed cotton—lint cotton.

By side dressing early your cotton grows off early and gets its maturity early and opens early, for when cotton gets its growth and maturity and ripens it is going to open. Your early cotton weighs better than late cotton. It takes about 120 bolls of cotton picked in September and October to make a pound. It takes from 200 to 400 bolls that are picked in the last half of November and later to make a pound.

When the boll weevil strikes a country the early cotton is all the farmer gets. The boll weevil gets the balance. You don't know when the boll weevil will strike you, or I don't.

Experienced ginners say that 1,300 pounds of side dressed cotton will make as heavy a bale as 1,500 pounds that has not been side dressed. The lint is better developed and there is more of it. Suppose side dressing makes two extra bolls to the stalk. The right kind properly applied will pay more than that and make every boll heavier. It will add three and four to the stalk. You will have at least 12,000 stalks to the acre, taking two extra bolls to the stalk and 120 bolls to make a pound you have 200 extra pounds of cotton from the extra bolls to say nothing of all the bolls being larger and heavier.

Side dressed cotton stands drought better than other cotton. It is better fed and in better condition to stand anything better. Side dressing makes more bolls, makes heavier bolls, makes more lint to the boll, makes cotton shed less, makes a better sample, that means a better price, causes your cotton to stand drought better. If side dressing does not pay, it does not pay to farm. The side dressing specially prepared by the Anderson Phosphate and Oil Company boys, is the goods you need.

Anderson Phosphate & Oil Co.

Pres. Mgr.

Side dressing does not pay any better anywhere than when applied to corn.

Financial and Commercial

New York Cotton

New York, May 15.—The cotton market was active today and fluctuations were more or less irregular with advances checked by realizing for over the week and of moderate selling for a reaction. Offering were not heavy enough, however, to cause any actual weakness and the close was steady at the net decline of 2 to 3 points.

The western belt forecast, however, was for unsettled weather, with renewed showers, while there were also complaints from the Eastern belt of droughty conditions and low night temperatures. These advices, combined with expectations of hullah week and reports of an improving spot demand from both the market and Manchester, rallied morning with July and later deliveries making new high ground for the movement, but after the close of Liverpool demand was less active with prices easing off again in the later trading.

The close showed a rally of five points on May, but was within a point or two of the lowest on later deliveries. Spot cotton steady, middling, upland 13.40; gulf 13.65. Sales 500. Cotton futures closed steady.

	Opened	Closed
May	12.99	12.61
July	12.66	12.63
August	12.23	12.22
October	11.83	11.84
December	11.88	11.85
January	11.80	11.76

New Orleans Cotton

New Orleans, May 15.—While prices at the close of the cotton market today were 2 to 5 points down there seemed to be a rather good undertone and many traders believed lack of outside support was more or less responsible for the slight drop. Spot cotton steady and unchanged, middling 13 1/4. Sales on the spot 2,723, to arrive 600.

Cotton futures closed steady, May 13.00; July 12.52; August 12.55; Oct. 11.87; December 11.85; Jan. 11.67.

Liverpool Cotton

Liverpool, May 15.—Cotton spot firm, good middling 6.00; middling 5.47; low m-calling 6.09. Sales 10,000; speculation and export 1,000. Receipts 2,000.

Cotton Seed Oil

New York, May 15.—Cottonseed oil was a shade higher on scattered covering of shorts, induced by the firmness in hard, but trading was dull, reflecting the poor demand for cotton oil. Final prices were 1 to 2 points net higher.

Cotton Goods

New York, May 15.—Cotton goods were steady and yarns were in better quality today. Foreign wool markets are rising. Silk chiffon values were bought more liberally for fall. Jobbers reported a moderate house business.

Stocks and Bonds

New York, May 15.—Having reflected in yesterday's advance the judgment of Wall Street regarding the fall of Tumbo, the stock market reacted today. There was nothing to stimulate speculation and the market slipped back into a monotonous routine. Traders moved cautiously. They did not care to venture extensive new commitments, owing to the possibility of a complete reversal of the speculative view from Mexico or a decision in the freight rates case.

Baltimore and Ohio's issue of \$25,000,000 one year 4-1/2 per cent notes was over subscribed in a few hours. A street had expected a bond issue, but President Willard said it had been decided to raise a short term loan on account of plans for issuing blank mortgage.

Dealings in bonds were broader and prices variable. Rock Island and coal interests fell.

Cotton futures closed steady, May 13.00; July 12.52; August 12.55; Oct. 11.87; December 11.85; Jan. 11.67.

not only for larceny, but also for issuing railroad passes to persons who are not railroad employees.

"SHRINE'S BURRO STOLEN"

Atlanta, May 15.—Arrest the guys who stole our burro and send her back P. D. Q. was the pathetic message that Police Chief Beavers received this morning from the departed delegation of Morocco Temple, Jacksonville Shrine.

It is said that they have sent similar messages to every sheriff between here and St. Paul, Minn., and the Jacksonville crowd take notice they know the culprits. "We've had Miss Primrose (the burro) nine years. She has been our beloved mascot. And these pecky rascals from St. Paul stole her away. They shan't get our darling."

NEGROES TO HANG

Atlanta, May 15.—William and Jas. Hart and John Paschal, negroes convicted of kidnapping Mrs. John Kirby in Jefferson county, will hang, according to the decision of the state supreme court handed down yesterday affirming their conviction.

These are the three negroes who were brought to Atlanta and tried before Judge Ben Hill of the Fulton Superior court, because of fear of mob violence in Louisville, the county seat of Jefferson.

MEN FOR LIFE TERM

Atlanta, May 15.—In order that his application for commutation to life imprisonment may be heard by the prison commission, Nick Wilburn of Jones county, convicted slayer of Jas. H. King, has petitioned Governor Slaton for a thirty days respite.

Wilburn is under sentence to hang on May 29. Governor Slaton has agreed that if he is able to appear that Wilburn can make a proper showing before the prison commission during the ten days which still remain before the date set for execution, on account of lack of time, he will grant the respite. The governor has written chairman Davison of the prison board, asking his advice as to whether Wilburn can make a proper showing within that time.

Wilburn was convicted in the state superior court, and the conviction has already been confirmed by the higher courts, so that the appeal to the governor and prison board is the only thing that now stands between him and the gallows.

WORK OF TRAIN BANDS

Great Northern Pacific's Train Band Was Held at Great Falls.

Spokane, Wash., May 15.—Great Northern passenger train number 2, the Oriental Limited, was held up by two masked men, early today near Redford station. The commission...

THE CROOKED GREEN STREET

A Story of Constantinople

By CHARISMA NACHRE

Constantinople's general form was that of a long, narrow strip of land, bounded by the Bosphorus on the west and the Golden Horn on the east. The city was built on a steep slope, and the streets were narrow and crooked. The most famous street was the Green Street, which was said to be crooked because it had been built on the site of a crooked tree.

One day, a young man named John went to the Green Street to see a friend. He had heard that his friend had been killed, and he wanted to see the place where it had happened. As he walked down the street, he noticed a crowd of people gathered around a building. He went over to see what was going on.

The crowd was talking about a man who had been killed. They said that the man had been a very rich man, and that he had been killed by a crooked man. John was interested in what they were saying, and he decided to go and see the man who had been killed.

John went to the Green Street and found a man who was lying on the ground. He was dead. John looked at the man and saw that he was a very rich man. He had a lot of money and a lot of clothes. John was surprised to see that the man had been killed.

A Triangular Affair

By OSCAR COX

"I say, Tom," said Alan Evans, "I'm in a scrape."

"I don't see what you're in a scrape for," said Tom. "You have engaged yourself to two girls and don't know how to get rid of one of them."

"Only partly correct," said Alan. "I have made arrangements to marry each of two girls tomorrow at high noon, and I don't want either of them."

"I told you that if you didn't stop," said Tom. "You said you'd give up both of them. I want you to keep one of both of those girls."

"I'll tell you what you can do. You can marry both of them. I'll be your best man. I'll be your best man. I'll be your best man."

"You're full of it," said Alan. "I've done that very thing. Each girl has sworn that I shall marry her."

"Tom, I'm in a scrape," said Alan. "I've done that very thing. Each girl has sworn that I shall marry her."

"You're full of it," said Alan. "I've done that very thing. Each girl has sworn that I shall marry her."
